As anglers, we know the enjoyment a day on a boat or the bank can bring. But we also know that youngsters who never have a chance to bait a hook or land a fish when they are growing up are less likely to become anglers as adults. They also are less likely to understand the value of our fish resources and support their stewardship.

It's important that we introduce our youngest citizens to the outdoors and teach them the skills that will prompt them to return for a lifetime of recreational experiences. By doing so, we enrich their lives, encourage stewardship of our natural resources, and sustain a legacy of outdoor sportsmanship.

To this end, the Washington Department of Fish and Wildlife (WDFW) has signed an agreement with the Washington Wildlife Federation (WWF), which will send a coalition of volunteers to schools, fairs and special events across the state to offer youngsters hands-on training in outdoor pursuits. The partnership is a major step forward for WDFW's Outdoor Recreation Partnerships Initiative—"Go Play Outside."

The newly-formed coalition of trained and experienced volunteers provides an on-the-ground delivery system to transmit outdoor education to the next generation. Among the

18 groups which have signed on to the coalition are Trout Unlimited, Washington State Federation of Fly Fishers, Cast for Kids Foundation, Inland Northwest Wildlife Council, Kittitas County Field and Stream Club, Walleyes Unlimited and Columbia Basin Walleye Club and Richland Rod and Gun Club.

The first of the coalition's events planned for 2003 is a middle-school field day that will offer about 220 sixth, seventh and eighth graders a chance to fish for trout and try their hands at other outdoor skills.

While the coalition provides the skilled people to deliver the training, funding for the endeavor will come from voluntary donations from fishers and hunters. Beginning this spring, each person who buys a recreational fishing and hunting license will be offered the opportunity to make a donation of \$1 or more toward this youth outdoor recreation education program managed by the coalition.

Those buying licenses online through the WDFW website will be the first to have this chance to contribute. This spring, anglers and hunters buying licenses in person or by telephone will be offered the same opportunity.

The optional donations are expected to raise some \$50,000 a year. Except for a standard licensing administrative fee, all of those funds will go to pay for the youth events.

The coalition's work is expected to both compliment and reinforce WDFW's existing youth fishing program. That effort, spearheaded by members of the Washington Fish and Wildlife Commission, sponsors more than a dozen "how-to" youth fishing events annually across the state.

But one agency's efforts alone aren't enough to keep the outdoor legacy alive among Washington's youth. Like any large-scale endeavor, teaming up with locally-based interested citizens offers the best hope for meaningful action.

We hope the coalition's added efforts will be the beginning of a sustained program, pairing kids who are eager to learn with the mentors who can best inspire and teach them. Enthusiasm is contagious, and no one is better equipped to pass along an appreciation for the outdoors and the enjoyment it has to offer than those who feel passionately about the stewardship of the state's fish and wildlife.

### **A Message from the Assistant Director and the Deputy Assistant Director**

Dear friends,

We hope this next year holds lots of opportunities to enjoy our wonderful resource. Over the past year, the Fish Program staff has been reviewing and researching ways to enhance your fishing experience and improve our Sportfishing Rules Pamphlet.

This year, the bid for publication of the pamphlet was awarded to a Washington State based business. We hope you will be pleased with the changes we have made. However, our changes this year only reflect the beginning of an improvement process we are undertaking. We need and encourage your input. Please be sure to check the survey included in this pamphlet and take time to partner with us in answering our questions and submitting your ideas.

Our goal is to present information in an accurate, clear, and consistent format. We are committed to carefully reviewing all recommendations and suggestions we receive. We appreciate the opportunity to work with you and look forward to hearing your suggestions. Please also visit our website at [www.wa.gov/wdfw/](http://www.wa.gov/wdfw/) or contact us at (360) 902-2700 for questions or further information.

*Jo Wadsworth  
Deputy Assistant Director, Fish Program*

# General Information

This Pamphlet is Effective  
May 1, 2003 through April 30, 2004

This Pamphlet contains information you need to legally fish throughout Washington State. (see WAC information summary below)

## HOW TO USE THIS PAMPHLET

### 1 ●●●●●●● Read the General Information Pages

Read the Selective Fishery information, the Licensing information and the Catch Record Card Information. Also be sure to look at the "Rule Change Highlights for 2003".

### 2 ●●●●●●● Read the Statewide General Rules

### 3 ●●●●●●● Read Marine Area, Shellfish/Seaweed, or Freshwater Section

Read Statewide General Rules pertaining to that section in which you intend to fish.

### 4 ●●●●●●● Read the Special Rules for Area and Species You Intend to Fish

These rule modifications supersede the General Rules and are listed as they apply to specific areas or species.

This pamphlet is a summary of WDFW regulations. Before fishing in a National Park or on an Indian Reservation, contact the Tribe or Park to check their regulations.

## Sportfishing Rule Development for 2004-2005

The 2004-2005 rule development process is what we term a "major cycle" year. This means that rule change proposals are accepted and considered from both the public and WDFW staff. Most types of rule change proposals for sport fishing are part of this process except for changes in salmon fisheries and licensing which are dealt within a different forum and/or require legislative action.

If you have participated before or are already on our mailing list, you will receive a mailout in early May containing a rule proposal form and detailed information about the process (timelines, etc.). **If you haven't participated but would like to, call 360-902-2700 or write to the Olympia office.** Information including a downloadable rule change form will also be available on our website at [www.wa.gov/wdfw/](http://www.wa.gov/wdfw/). Proposals will need to be returned to WDFW by early July of 2003 to be considered in this year's process.

### WAC Summary Information

This pamphlet is a summary of fishing regulations (Chapters 220-12, 220-16, 220-20, 220-55, 220-56, 232-12, and 232-28 of the Washington Administrative Code adopted by the Washington Fish and Wildlife Commission, and Title 77 of the Revised Code of Washington adopted by the Legislature). This pamphlet does not contain nor is it intended to contain all Department regulations. **NOTE:** Emergency rules may occur throughout the year and will supersede the rules contained in this pamphlet. Changes can be found by contacting the WDFW Fishing Hotline, the Shellfish Rule Change Hotline, statewide customer service, and are also available on the WDFW website. (See contact information on page 5.)

This program receives Federal financial assistance from the U.S. Fish and Wildlife Service. It is the policy of the Washington State Department of Fish and Wildlife (WDFW) to adhere to the following: Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972. The U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability and sex (in educational programs). If you believe that you have been discriminated against in any program, activity, or facility, please contact the WDFW ADA Coordinator at 600 Capitol Way North, Olympia, Washington 98501-1091 or write to: U.S. Fish and Wildlife Service Office of External Programs 4040 N. Fairfax Drive, Suite 130 Arlington, VA 22203

(not a gaff hook)

## SELECTIVE FISHING

Selective Fisheries for hatchery produced fish, and catch-and-release fisheries are increasingly important to providing recreational fishing opportunities in Washington. To ensure these fisheries are successful, it is absolutely essential that participating anglers comply with all regulations and take great care in releasing unmarked fish.

*Photo shows the proper technique of releasing a fish with a dehooker without bringing the fish on board the vessel.*

## ATTENTION ANGLERS

SPECIAL REQUIREMENT FOR THE FOLLOWING 2003 FISHERIES:

- MARINE AREAS 5 & 6 CHINOOK SELECTIVE FISHERY
- AREA 10 JUNE CATCH-AND-RELEASE FISHERY

**ANY SALMON TO BE RELEASED MAY NOT BE BROUGHT ON BOARD A VESSEL**

## HOW TO RELEASE FISH

When you need to release a fish, there are some special precautions you can take to give it the best chance of surviving:

- Minimize handling by leaving the fish in the water if at all possible – if you must remove it from the water, return it to the water as soon as possible.
- Do not net your fish – but if you must, use a net with cotton or rubber mesh.
- Use a hook remover (dehooker) when hooks are imbedded in the mouth or jaw.
- If a fish has swallowed the hook, cut your leader.
- Keep fingers away from the eyes and gills of the fish.

## STATEWIDE CATCH-AND-RELEASE AWARENESS DAY

**AUGUST 30, 2003**

On this day anglers are encouraged to release their catches.  
Experience the thrill of sport fishing while voluntarily preserving our fish.

# General Information

## Rule Change Highlights for 2003

### Marine Fish & Shellfish Changes

**Protection of rockfish** was the reason for several changes made in the rules for Marine Areas. In Marine Areas 5-13, anglers may not retain any canary rockfish or yelloweye rockfish. In Marine Areas 1-4, the daily limit for canary rockfish has been reduced from 2 to 1. It is now unlawful to bring yelloweye rockfish taken for personal use into any port in Marine Areas 1-13, and anglers may not bring canary rockfish in any port unless the adjacent waters are open to their retention (a landing may not exceed the allowable catch from adjacent waters). These rules apply regardless of where the rockfish were actually harvested. To provide protection for yelloweye rockfish, a C-shaped area in Marine Areas 3 and 4 has been closed to fishing for halibut and bottomfish, and anglers may not fish for salmon in this area with halibut or bottomfish on board their boat. (See Marine Areas 3 and 4 for the exact description). In Marine Areas 1-4, anglers may now harvest an aggregate of 15 bottomfish per day (subject to individual species limits) similar to the rule already in place for Areas 5-13.

**A new shrimp district has been created in Port Townsend Bay.** This will make it easier for staff to monitor the catch and adjust open days so that shrimpers harvest their quota in both the shrimp district and the larger Marine Area 9.

### Salmon

**Areas 5 & 6 Chinook Selective Fishery** - Excited cries of "KING ON!" will once again ring out across the waters of Area 5 and the western portion of Area 6 this summer with the inauguration of Washington's first-ever marine water selective season for marked hatchery chinook. Fishing for chinook in these areas has been severely constrained in recent years for conservation of listed endangered Puget Sound wild chinook salmon. The 2003 summer sport salmon fishing season in Areas 5 and 6 kicks off July 1 and continues through September 30, but the buzz of "dock talk" is focused on the dates of July 5 through August 14, because that is when anglers will be permitted to keep up to 2 marked chinook (see pages 97-99 for a complete description of rules). Mass marking programs at state and tribal hatchery facilities have made it possible to distinguish hatchery chinook from their wild counterparts. Chinook retention is conditioned upon a quota not to exceed 3,500 fish, and chinook retention will be curtailed when the quota is attained, or after August 14, whichever occurs first. Considered a "pilot" program, a successful outcome in this fishery is vital to increased salmon fishing opportunities in the future. To make it a successful fishery, the department will increase sampling, monitoring and enforcement activities, and anglers must strictly adhere to fishing regulations and carefully handle fish to be released. Be sure to note a new regulation adopted for this fishery:

#### **ANY SALMON TO BE RELEASED MAY NOT BE BROUGHT ON BOARD A VESSEL**

Your cooperation and assistance with these efforts is important in determining the future of this fishery.

**Ocean Chinook Size Limit Increases** – The minimum size limit for chinook salmon in Areas 1-4 has increased to 26 inches. This is a change from the long standing chinook minimum size limit of 24 inches in ocean waters.

**Pink Salmon in Abundance in '03!** - A large return of pink salmon into Puget Sound is expected in 2003. Catch limits have been increased in many marine areas (Areas 3-9) and key northern Puget Sound rivers.

**Buoy 10 Salmon Limit Increases** – The Buoy 10 season opens August 1 with a two fish limit, but no more than 1 chinook. Beginning August 16, the daily limit will increase to 3 salmon, but no more than 1 chinook. This is due to the greater abundance of hatchery coho expected to return to the Columbia River in 2003.

**June Salmon Fishing Re-opens in Tacoma** - Changes in South Sound salmon fishing opportunity include Area 11 re-opening with a two fish limit in the month of June (see pages 112-113). Area 13 will be closed to salmon fishing for the month of June but will then be open continuously for salmon retention July 1 through May 31 (see pages 116-117).

**Catch-and-Release in the Seattle Area** - There will be a new summer 'catch-and-release' season June 16 through June 30 in Area 10 north of a line from Meadow Point to Point Monroe. Catch-and-release fishing reflects the diversity of interests that comprise meaningful recreational fishing opportunity in Washington. In this fishery, **SALMON MAY NOT BE BROUGHT ON BOARD A VESSEL**. It is vital that anglers carefully handle and release all salmon.

**Stilly Coho are back!** - The Stillaguamish River will be open September 1 – December 31, and for the first time in many years anglers will be allowed to keep coho salmon. A strong coho forecast has enabled managers to provide additional recreational fishing opportunity in the river.

**Skagit Coho Limit Upped** - The Skagit River coho return is expected to be strong enough to allow up to 3 coho in the daily limit through October 31 (see page 43).

**Carbon River Chinook Selective Fishery** - A new chinook selective fishery will be implemented in the Carbon River, tributary to the Puyallup River in central Puget Sound. This regulation will allow the wild chinook to pass to the spawning grounds while targeting the abundant hatchery return. Although the river's season runs September 1 through November 30, the greatest period of chinook abundance is expected to occur during the first six weeks of this season (see page 27).

### Freshwater Changes

**The spring closure on Crab Creek** from State Hwy 17 to Grant Co. Rd 7 has been changed to a gear restriction only from Grant Co. Rd 7 to 150 feet downstream of the Alder Street fill and the outlets from Moses Lake downstream to their point of confluence.

**The season in the lower East Fork Lewis River** has been changed to June 1-March 15 (catch-and-release for trout except up to 2 hatchery steelhead may be retained) with additional steelhead only opportunity April 16-May 31, selective gear rules.

**Lower Washougal River Selective gear rules** were added to the April 16-May 31 steelhead season.

**Landlocked salmon rules were removed from Lake Scanewa and Mayfield Lake.** Salmon fishing opportunity is still available on both of these waters. **In Little Pend Oreille River**, a change was made in the area where selective gear rules and catch-and-release apply.

**Harvest of any freshwater bivalves** (clams, mussels) has been closed in all freshwater areas of the state. This is in response to information that some populations of these animals are very depressed, and individual species are very hard to tell apart. There is also no field monitoring of these animals to obtain data on harvest or population status.

**For details on all of these changes, see the individual water listings.**

# General Information

## WDFW Tagging

The Department of Fish and Wildlife has released millions of chinook and coho salmon with microscopic coded-wire tags implanted in their heads. At one time, these fish also had their fins removed. However adipose fin removal is now used to indicate hatchery-origin chinook and coho tagged or not. The missing adipose fin no longer is an exclusive marker for coded-wire tagged salmon. WDFW samplers carry equipment to detect tags and will be collecting only the heads that actually carry a tag.

## Mutilation of Fish is Illegal

You may not intentionally waste or mutilate game fish, food fish (such as dogfish), or shellfish.

## The Land and Landowners

A true resource enthusiast respects the land and demonstrates this respect and appreciation while in the field. Remember to obtain permission from the landowner before entering upon his or her land to hunt or fish. And, while in the field, conduct yourself in a way that will ensure a welcome to those who follow after you.  
Please Do Not Litter!

## Boat Safely and Live to Fish Again

The Washington Department of Fish and Wildlife supports and encourages safe boating, and urges anglers to be careful and responsible on Washington's waterways. Recreational fishing accounts for about half of this state's boating fatalities. WDFW reminds anglers to always wear U.S. Coast Guard approved lifejackets, understand and be alert for weather and tide changes, carry all required safety equipment, and never "push your luck" when it comes to safety on the water. If you have never taken a boating safety course, contact the U.S. Coast Guard Auxiliary, U.S. Power Squadrons or Washington State Parks Boating Program for information on classes and home-study courses.

## Derelict Fishing Gear

The Department of Fish and Wildlife is collecting information statewide on the locations of derelict fishing gear. To report the location of derelict gear, call 1-800-477-6224 or visit [www.wa.gov/wdfw/](http://www.wa.gov/wdfw/). Information collected will be made available to organizations qualified to remove gear.

## Heightened Security

After the events of September 11, 2001, security has been heightened around the nation. Please be aware that there are 500-yard Naval Vessel Protective Zones around all naval vessels. Also, most military installations on the water have exclusionary zones around them. For details, consult: <http://nw.navcen.uscg.gov/Inm/d13/> or the local base commander or Coast Guard office.

## Emergency Incident Hotline

**Call toll-free at 1-800-477-6224, Monday-Friday, 8 a.m. - 5 p.m.** The Washington State Department of Fish and Wildlife, Enforcement Program, encourages any citizen who witnesses a fish or wildlife offense, who has knowledge of a fish or wildlife offense, or has an encounter with dangerous wildlife, to report the violation/incident. Remember, this is not an informational hotline! This number is for emergencies only. **To report a violation outside the hours listed above, call the nearest State Patrol Office listed below.** The State Patrol has direct contact with Fish and Wildlife Officers. Leave a message or ask that an Enforcement Officer contact you.

## Help Stop Hitchhikers!

Even careful citizens can accidentally introduce harmful plants and animals into our state waters.

So what's the problem?

Zebra Mussel

European Green Crab

Outside their native home some plants and animals can:

- Cause billions of dollars worth of economic damage.
- Upset your region's natural and ecological balance.
- Cripple sport and commercial fisheries.

## Be a part of the solution!

- Don't release unwanted aquarium plants or animals into our waters.
- Don't discard unwanted live bait or its packing into the water.
- Don't launch your boat before removing all hitchhiking plants and animals and placing them in the trash.
- Don't release unwanted non-native live seafood or its packing into the water.

We can all be part of the solution and prevent major environmental and economic damage that can result from the presence of harmful plants and animals.

For more information visit our aquatic nuisance species web site at [www.wa.gov/wdfw/fish-sh.htm](http://www.wa.gov/wdfw/fish-sh.htm) or contact us at (360) 902-2700.

# License Information

## 1 ..... Fishing License Requirements:

- Everyone 15 years of age or older **must** have a license.
- Federal and state law requires persons 15 years or older to give their Social Security number in order to obtain a license (*Federal Law US Code: Title 42, Section 666, Paragraph 13, Section A. State Law RCW 77.32.014*).
- Licenses must be on your person while fishing.
- When harvesting or transporting shellfish/seaweed, the license must be displayed on the outside of clothing.

## 2 ..... Fishing Licenses are not Required for:

- Albacore tuna, common carp, crawfish, bullfrogs, smelt or unclassified marine invertebrates (see seasons and limits).
- Juveniles 14 years of age and younger (Catch Record Card may be required, see below).
- Free Fishing Weekend (Catch Record Card may be required, see below).

## 3 ..... Catch Record Cards (see page 12) are Required for Everyone (resident or non-resident) Fishing for:

- Salmon
- Sturgeon
- Steelhead
- Dungeness Crab
- Halibut (Areas 5-13)

## 4 ..... Vehicle Use Permits are Required to Park a Vehicle in many WDFW Access Areas (included with an annual license purchase, except shellfish/seaweed license).

### License Types

**Combination License:\*\*** The combination license allows the license holder to fish in freshwater, saltwater and harvest shellfish/seaweed. (See catch record card requirements, page 12).

**Freshwater License:\*\*** The freshwater license allows the license holder to fish for food fish or game fish species in freshwater areas (see catch record card requirements, page 12).

**Saltwater License:\*\*** The saltwater license allows the license holder to fish for food fish or game fish species in saltwater (see catch record card requirements, page 12).

**Shellfish/Seaweed License:** The shellfish/seaweed license allows the license holder to harvest Dungeness and red rock crab, goose barnacles, mussels, octopus, oysters, razor clams, scallops, sea cucumber, sea urchins, shrimp, softshell and hardshell clams, squid and seaweed (see catch record card requirements, page 12).

**2-day (consecutive) License:** This short term license allows the license holder to fish two consecutive days for any species in freshwater or saltwater or to harvest shellfish/seaweed. This license is not valid for game fish for the 8-day period beginning the last Saturday in April. (See catch record card requirements, page 12).

\*\*There are three areas where anglers may legally fish with either a freshwater, saltwater, or combination license. These are Grays Harbor (Marine Area 2-2), Willapa Bay (Marine Area 2-1) and the Columbia River between a line from Rocky Point on the Washington shore to Tongue Point on the Oregon shore and the Buoy 10 line.

# Purchasing Your Licenses

## Internet Sales

Using the WILD automated system, licenses may be purchased via the Internet at [www.fishhunt.dfw.wa.gov/](http://www.fishhunt.dfw.wa.gov/).

At the conclusion of a telephone or internet sale, an authorization number will be issued. This number may be used as your license to fish for species that do not require a catch record card or a wearable license. Licenses and catch record cards will be mailed to you. Species that you may not fish for with only an authorization number include shellfish, seaweed, halibut in areas 5-13, sturgeon, salmon and steelhead.

## Telephone Sales

Using the WILD automated system, licenses may be purchased over the telephone at 1-866-246-9453.

## Dealer Outlet Sales

Licenses may be purchased at over 500 license dealers across the state. For a license dealer near you check our website at [www.fishhunt.dfw.wa.gov/](http://www.fishhunt.dfw.wa.gov/) or call (360) 902-2464.

## Using the WILD System

Think of your WILD ID number as your permanent license number. Using your WILD number will:

- Increase the accuracy of your licenses and license history.
- Require only one license document.
- Decrease the time spent at a license dealer.

## License Qualifications for Persons with Disabilities

Reduced-fee licenses may be provided to persons who submit an application with proper documentation as:

- Blind or visually impaired
- Developmentally disabled
- Physically disabled and permanently uses a wheelchair
- Resident qualified veteran with a 30% or more service-connected disability

These and other permanent disabilities may be qualifiers for a Designated Harvester Card, which allows another licensed person to assist a fisher with a disability in harvesting a daily limit of fish or shellfish.

Applications for reduced fees or a Designated Harvester Card must be processed through a Department of Fish and Wildlife office.

**To request an application or for more information, write:** WDFW Licensing Division, 600 Capitol Way N, Olympia, WA 98501-1091 **or call** (360) 902-2464

## Free Fishing Weekend

The weekend corresponding with National Fishing Week has been declared "Free Fishing Weekend" in Washington. On this weekend, **June 7-8, 2003**, fishing licenses are not required for food fish, shellfish and game fish. Catch record cards, which are free, may be required. A Vehicle Use Permit is not required to use WDFW lands during "Free Fishing Weekend."

These free fishing days are valid for everyone, regardless of residency or age. All other rules remain in effect. Only waters open to fishing may be fished; lure and/or bait restrictions along with size and catch limits currently in place must be followed.

## Fishing Contests

Any event where six or more licensed anglers fish competitively for game fish and determine winners, regardless of the prize value, is defined as a fishing contest, and requires a permit from WDFW. For more information, or to request an application for a permit to conduct a fishing contest, contact WDFW's Fish Program at (360) 902-2700. There is a \$24 fee for the permit.

## Vehicle Use Permit

Vehicle use permits are required to park vehicles at all posted WDFW wildlife areas and water access sites. These permits generate funding for maintenance of WDFW lands and water access sites used by hunters, anglers, boaters, bird watchers, and other recreationalists.

The permits are issued once annually to each license holder and are transferable between two vehicles. Additional permits may be purchased for \$5 each. Original permits are \$10 each if purchased separately without a fishing or hunting license. Vehicle Use Permits must be clearly displayed and visible from outside the vehicle. They can be placed on the dash, hung from the rear-view mirror, or placed on the front seat. The penalty for parking on WDFW lands without a permit will automatically be reduced from \$66 to \$30 if the vehicle owner shows proof he or she has purchased a permit within 15 days of the violation.

For a list of locations where these permits are required, go to our web site at [www.wa.gov/wdfw/](http://www.wa.gov/wdfw/) or visit a WDFW office in Spokane, Ephrata, Wenatchee, Yakima, Mill Creek, Olympia, Vancouver, or Montesano.

# Definitions

## ADULT SALMON

In freshwater and Marine Areas 2-1 and 2-2, chinook 24" or more in length; coho 20" or more in length; and pink, chum, and sockeye salmon 12" or more in length are adults.

## ANGLING (HOOK & LINE FISHING)

Fishing for personal use (not for sale or barter) with a line attached to a pole capable of being held in hand while landing fish, or a hand-operated line without a rod or reel.

## BAIT

Anything that attracts fish or shellfish by scent and/or flavor. This includes any device made of feathers, hair, fiber, wood, metal, glass, cork, leather, rubber, or plastic which uses scent and/or flavoring to attract fish or wildlife.

## BOTTOMFISH

Includes Pacific cod, Pacific tomcod, Pacific hake (or whiting), walleye pollock, all species of dabs, sole and flounders (except Pacific halibut), lingcod and other species of greenling, ratfish, sablefish, the following species of sculpin: cabezon, buffalo sculpin, great sculpin, red Irish lord, brown Irish lord, Pacific staghorn sculpin; wolfeel, giant wrymouth, plainfin midshipman, all species of shark, skate, rockfish, rattail, and surfperches excluding shiner perch.

## BOW-AND-ARROW FISHING

Taking food fish with a line attached to an arrow and propelled by a bow.

## CATCH-AND-RELEASE FISHING

A type of fishing where all of the fish caught are released back into the water alive.

## CHUMMING

Scattering feed or other materials to attract fish to a location.

## CLOSED WATERS

A body of water where fishing is prohibited.

## DAILY LIMIT

The maximum number or pounds of fish, shellfish, or seaweed of a given species and size which a person may legally keep in a single day.

## EMERGENCY RULE (RCW 34.05.350)

An emergency rule is filed by an agency when an agency determines that immediate action is necessary. An emergency rule takes effect upon filing with the code revisor unless a later date is specified.

## EQUIPPED WITH A MOTOR

A motor is attached to the floating device, regardless of whether the motor is in the water.

## FLY

A lure on which thread, feathers, hackle, or yarn cover a minimum of half of the shank of the hook. Metallic colored tape, tinsel, mylar, or beadeyes may be used as an integral part of the design of the fly pattern.

## FLY FISHING ONLY

In "Fly Fishing Only" waters, an angler may use only the following tackle: up to 2 flies, each with a barbless single hook which measures 1/2" or smaller measured from the point to shank and a conventional fly line (other line may be used for backing or leader if attached to at least 25 feet of fly line). Anglers may not use fixed spool reels, bait, or weight attached to the leader or line.

A fisher with a disability may fish in "Fly Fishing Only" waters with spin casting gear with a casting bubble provided that the fisher has a special use disability permit in his or her possession. All other restrictions listed above still apply.

## FOOD FISH

Includes forage fish, halibut, bottomfish, common carp, shad, tuna, mackerel, salmon and sturgeon.

## FORAGE FISH

Includes anchovy, sand lance, herring, sardine, and smelt.

## FORAGE FISH DIP NET

A section of netting (maximum mesh size is 1/2" stretched mesh) distended by a rigid frame not exceeding 36" across and directly attached to a rigid handle. May only be used for forage fish.

## FROZEN

Fish or shellfish that are hard frozen throughout.

## FRESH

Fish or shellfish that are refrigerated, iced, salted, or surface glazed.

## FRESHWATER AREA

Those waters within any freshwater river, lake, stream or pond. On the bank or within 10 yards of any freshwater river, lake, stream or pond. On or within any boat launch, ramp, or parking facility associated with any freshwater river, lake, stream, or pond.

## GAFFING

Attempting to take fish by impaling fish with a hook attached directly to a pole or other device.

## GAME FISH

Includes bass, burbot (freshwater ling), catfish, crappie, grayling, northern pikeminnow, peamouth chub, yellow perch, northern pike, tiger musky, sucker, sunfish, grass carp, trout (including steelhead and kokanee), landlocked chinook, coho and Atlantic salmon, walleye and whitefish.

## STATEWIDE GENERAL RULES

Rules that apply to all fishing statewide.

## HATCHERY FISH

Means a chinook or coho missing an adipose fin, or steelhead or cutthroat missing an adipose fin or a ventral fin and having a healed scar at the location of the missing fin.

# Definitions

## HOOK

### BARBLESS

A hook from which all barbs have been deleted when manufactured, filed off, or pinched down.

### SINGLE

A hook with a single point.

### DOUBLE

A hook with two points on a common shank.

### TREBLE

A hook with three points on a common shank.

## IN THE FIELD OR IN TRANSIT

Anywhere other than at an ordinary residence. Dockside fish cleaning facilities, boat ramps, and cold storage lockers are considered in the field.

## INTERNAL COMBUSTION ENGINES PROHIBITED

Means fishing from a floating device equipped with an internal combustion engine is prohibited.

## JACK SALMON

Chinook and coho salmon that return at a younger age than most members of their species. For freshwater rules and in Willapa Bay (area 2-1) and Grays Harbor (area 2-2), a jack salmon is a chinook less than 24" in length or a coho less than 20" in length.

## JUVENILE ONLY

Waters open for fishing only to youth under 15 years of age.

## KOKANEES

Freshwater resident sockeye salmon, also called silver trout. Where the sea-run (sockeye) and the resident (kokanee) forms occur together, refer to the Freshwater Special Rules for the size differences between kokanee and sockeye.

## LANDLOCKED SALMON RULES

In waters where landlocked salmon rules apply, salmon are regulated as trout. Seasons, daily limits, and size restriction rules for landlocked salmon are identical to the game fish rules for trout in the same water. The angler's combined catch of salmon and trout applies toward the trout limit. A Catch Record Card is not required to retain salmon in these waters.

## LENGTH

The shortest distance between the tip of the nose and the extreme tip of the tail, measured while the fish is laying on its side on a flat surface with its tail in a normal position.

## LURE

A manufactured article, complete with hooks, constructed of feathers, hair, fiber, wood, metal, glass, cork, leather, rubber, or plastic which does not use scent and/or flavoring to attract fish.

## MARINE AREA

Those waters contained within the boundaries of Washington state, within Puget Sound, Hood Canal, the Strait of Juan de Fuca, the San Juan Islands, the Strait of Georgia, and the Pacific Ocean, including estuaries seaward of the river or stream mouth (see Mouth definition).

## MAXIMUM SIZE (MAX. SIZE)

The largest size of fish or shellfish that may be kept. For fish, the maximum size refers to the length.

## MINIMUM SIZE (MIN. SIZE)

The smallest size of fish or shellfish that may be kept. For fish, the minimum size refers to the length.

## MOTORS PROHIBITED

Fishing from a floating device equipped with a motor is prohibited.

## MOUTH

Unless otherwise defined, the mouth of a stream, river or slough is a line projected between the outermost uplands at the mouth. Outermost uplands are those lands not covered by water during ordinary high water.

## NIGHT CLOSURE

Fishing is closed from one hour after official sunset to one hour before official sunrise.

## NON-BUOYANT LURE RESTRICTION

When a non-buoyant lure restriction is in effect, anglers fishing with a non-buoyant lure (one that sinks in freshwater) may only use a lure that is equipped with one single hook measuring 3/4" or less from point to shank. The single hook restriction does not apply to a buoyant lure (one that floats in freshwater).

## ORDINARY RESIDENCE

A residential dwelling where a person normally lives, with associated features such as address, telephone number, utility account, etc. A motorhome or camper parked at a campsite is not considered to be an ordinary residence.

## POSSESSION LIMIT

The number of daily limits allowed to be kept in the field, or in transit.

# Definitions

## PROCESSED

Fish or shellfish that have been subjected to heat (including kippering, smoking, canning, and boiling).

## PUGET SOUND

All saltwater areas east of the Bonilla-Tatoosh line, outside the mouth of any river or stream, including the Strait of Juan de Fuca, Georgia Strait, Hood Canal, and all bays and inlets.

## QUOTA MANAGEMENT

Salmon, halibut, sturgeon and some shellfish are managed by allocations in many areas. These fisheries close when the allocations have been taken.

## RELEASE WILD CHINOOK, COHO, STEELHEAD OR CUTTHROAT

Wild chinook, coho, steelhead or cutthroat may not be kept; only hatchery fish of the designated species may be kept. Hatchery fish are identified by missing adipose or ventral fins and a healed scar in the location of the missing fin. (See Wild Chinook and Coho, and Wild Steelhead and Cutthroat.)

## RESIDENT

A person who has lived in Washington at least 90 days preceding license purchase and who does not hold a resident license from any other state.

## SALMON

Includes chinook, coho, pink, chum, sockeye and Atlantic salmon.

## SEAWEED

Marine species of algae, such as kelp, rock weed, and sea lettuce.

## SELECTIVE GEAR RULES

Only unscented artificial flies or lures with one single barbless hook are allowed. Up to a total of three artificial flies or lures containing single barbless hooks may be used. Bait is prohibited; fish may be released until the daily limit is retained. No one may fish from any floating device equipped with a motor, except where specifically allowed under Special Rules for individual waters. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

## SHELLFISH

Includes dungeness, red rock, tanner, king and box crab, razor clams, softshell and hardshell clams, oysters, shrimp, sea cucumbers, sea urchins, scallops, goose barnacles, cockles, mussels, squid, octopus and crawfish.

## SNAGGING

Attempting to take fish with a hook and line in such a way that the fish does not voluntarily take the hook(s) in its mouth.

## SPEAR FISHING

Attempting to take fish by impaling the fish on a shaft, arrow, or other device.

## SPECIAL RULES

Are the rule exceptions to the statewide rules as listed in the Freshwater Special Rules, Marine Area additional Rules, and Shellfish/Seaweed Rules.

## STATEWIDE FRESHWATER RULES

Rules that are specific to freshwater fishing.

## MARINE AREA RULES

Rules that are specific to saltwater fishing.

## STATEWIDE FRESHWATER SPECIES RULES

Statewide rules for freshwater game fish and food fish.

## STATEWIDE SHELLFISH/ SEAWEED RULES

Rules that are specific to Shellfish and Seaweed harvest.

## STEELHEAD

A sea-run rainbow trout over 20" in length.

## TROLLING

Fishing from a vessel while in gear making progress under power.

## TROUT

When used in the fishing pamphlet, the term trout includes rainbow trout, steelhead, brook, brown, cutthroat, golden, lake and kokanee (silver trout) as well as landlocked chinook, coho, and Atlantic salmon, and grayling.

## UNCLASSIFIED MARINE INVERTEBRATES

Marine invertebrates not listed in the shellfish definition, such as snails, nudibranchs, shore crabs, graceful crabs, sand dollars, starfish, white sea cucumbers, limpets, chitons, etc.

## WEIGHT

The weight of fish or shellfish before cleaning them and the wet weight for seaweed on which daily and possession pound limits are based.

## WILD CHINOOK AND COHO

Wild chinook and coho have intact adipose fins.

## WILD STEELHEAD AND CUTTHROAT

Wild steelhead and cutthroat have intact adipose and ventral fins.

# Statewide General Rules\*

## Harvest Rules

### You May Not:

Fish in closed waters.

Possess fish or shellfish that do not meet the minimum and maximum size limits, weight limits, or sex restrictions, or that are in excess of the daily or possession limit.

Intentionally waste game fish, food fish, or SHELLFISH. This includes mutilating or clipping fins and returning to the water any live fish (such as DOGFISH).

Remove eggs from SALMON or STURGEON without keeping the body of the fish.

Use SALMON, HERRING, or HALIBUT for anything other than human consumption or fishing bait.

Possess or use live fish for game fish bait.

Snag or attempt to snag fish.

Fish for (unless authorized by Special Rules) or harass game fish or food fish within 400 feet downstream of a man-made dam, fish ladder, or other obstruction or in rearing, holding, or passage facilities.

Harvest any part of another person's daily limit, except for persons who possess a designated harvester card.

Continue to fish for SALMON after the adult portion of the daily limit (freshwater) has been retained, or after the daily limit has been retained for marine waters, except that where a saltwater license is valid each fisher aboard a vessel may continue to deploy angling gear or SHELLFISH gear until the daily limit of food fish and SHELLFISH for all licensed and juvenile anglers aboard has been achieved.

Use any type of chemical irritant to harvest fish, SHELLFISH or unclassified marine invertebrates unless a special exception has been made by the Director.

Offer any recreationally caught fish or SHELLFISH for sale or barter.

## Buying Treaty Indian Caught Fish

In order to buy, sell or possess STEELHEAD, sea-run CUTTHROAT, or Dolly Varden/bull trout lawfully taken by a treaty Indian, a person must meet the following requirement: The fish must be accompanied by a written statement showing taker's name, address, tribal affiliation, and treaty fish identification card number, number of fish, date and location where taken. This rule does not apply to treaty Indians nor to game fish purchased from a fish buyer licensed by the Department of Fish and Wildlife.

## Gear Rules

### You May Not:

Use drugs, explosives, or poison that may kill or injure fish and wildlife.

Use more than one line while fishing, except that a second line using forage fish jig gear is lawful while fishing in Marine Areas 5-13.

Fish with a rod not under your immediate control.

Use a net, except to land legally-hooked fish or a dip net for forage fish.

Fish for salmon, sturgeon, octopus or crab in saltwater with underwater spearfishing gear.

Fish for game fish, SALMON, SHAD, STURGEON or SHELLFISH with bow and arrow or spear.

Chum (broadcast feed) to attract game fish unless authorized by Special Rules.

Use a gaff hook, except to land legally hooked HALIBUT, TUNA or DOGFISH shark.

Use a HERRING rake or a SMELT rake.

### You are Required to:

Cooperate with data collection or other sampling of food fish, game fish, SHELLFISH or SEAWEED upon request of Department of Fish and Wildlife personnel. This includes relinquishing any part of a SALMON, STEELHEAD, or other species of fish containing coded-wire tags.

Stop at mandatory check stations established by the Department of Fish and Wildlife.

Show fish, SHELLFISH, and SEAWEED in your possession and required licenses, catch record cards, and gear being used upon request of a Fish and Wildlife officer.

Fill out your Catch Record Card immediately upon retaining SALMON, STEELHEAD, HALIBUT, or STURGEON. For Dungeness crab, fill out immediately when fishing from a boat or dock or upon returning to shore when wading or diving.

## Landing of Yelloweye and Canary Rockfish

No YELLOWEYE rockfish may be landed into any Washington port, regardless of the area of catch, including Canadian waters and waters off Oregon. A maximum of 1 CANARY rockfish per person may be landed into Areas 1-4, regardless of the area of catch. No CANARY rockfish may be landed into any port in Areas 5-13, regardless of the area of catch.

## Possession Rules

You may not fish for or harvest fish or shellfish in an area with catch in your possession that does not meet the rules of that area. You may, however, pass through such an area without stopping to fish.

You may not possess another person's game fish unless it is accompanied by a statement showing the name, address, license number, date, county, and area where it was taken, and the signature of the angler who harvested it.

You may not hold recreationally-caught food fish, game fish, or SHELLFISH in storage by a custom cannery, hotel or restaurant, or a cold storage plant without tags listing the name and address of its owner.

Fish or shellfish may be cleaned or portioned while in the field with the following exceptions: It is unlawful for an angler to fail to retain proof of compliance with species, size, number, weight, sex or wild or hatchery origin restriction, if such restrictions apply, until the angler is ashore and has finished fishing for the day.

For all rockfish species and for fish with a length restriction, anglers must retain the fish carcass until coming ashore to comply with the above rule. This does not apply if the catch is in the process of being prepared for immediate consumption. It is unlawful to possess Dolly Varden/Bull trout in the field in such condition that the species and total length cannot be determined.

It is unlawful to possess in the field STURGEON eggs without having retained the intact carcass of the fish from which the eggs were removed.

In Marine Areas 1-6, it is unlawful for any person to possess more than one daily limit of fish or SHELLFISH in fresh form while aboard a vessel.

## Fish and Shellfish Caught in Canada

If you are transporting Canadian-caught fish or shellfish into a Washington port, you must possess a Canadian license, and if required, a Canadian catch record. SHELLFISH or food fish other than SALMON taken from Canadian waters must comply with Canadian sport fishing rules. You may not stop to fish in Washington waters if transporting Canadian-caught fish or SHELLFISH that do not meet Washington fishing regulations.

All SALMON caught in Canada and landed at Washington ports must meet the restrictions in place for the port where landed at the time of the landing, including both daily and size limits. If the adjacent waters are closed, no landing of fresh SALMON is allowed. You may not land both a Canadian and a Washington limit of SALMON on the same day (one or the other, but not both).

# BROOK TROUT, BULL TROUT OR DOLLY VARDEN ?

## Why you should care.

Bull trout and Dolly Varden are native to Washington waters and are listed as threatened under the Endangered Species Act. Brook trout are not native to Washington and can negatively impact bull trout and Dolly Varden. All three species look very much alike and often live in the same waters. Brook trout may be harvested in most waters, but bull trout/Dolly Varden harvest is limited to a few select waters (see special rules for details). Here's how to tell them apart.

### Brook Trout

Black spots or "worm tracks" on dorsal fin.

### Dolly Varden/Bull Trout

No distinct spots on dorsal fin.

The dorsal fin is the key to telling them apart. If the dorsal fin has black spots or "worm tracks," it's a brook trout. If the dorsal fin is clear or olive colored, with no distinct spots, it's a bull trout or Dolly Varden.

So remember, in waters that are closed to harvest of bull trout:

**No black, put it back!**

# Statewide Freshwater Rules

## Using Freshwater Rules

### 1 ..... Read:

The Statewide Freshwater Rules and Statewide Freshwater Species Rules. Determine seasons and general rules applying to game fish or food fish for which you intend to fish. Remember to check for emergency rules. These changes can be found by contacting the WDFW Fishing Hotline, statewide customer service and are also available on the WDFW website.

### 2 ..... Choose:

The location you are going to fish and check that area for Special Rule listings. Special Rules are divided into four areas: Westside Rivers, Westside Lakes, Eastside Rivers and Eastside Lakes. RIVERS lists rivers, streams and beaver ponds. LAKES lists lakes, ponds, and reservoirs. For the purposes of this pamphlet, all sections of the COLUMBIA AND SNAKE RIVERS are rivers (not reservoirs) and any special rules that apply are listed in the Eastside Rivers section. See map below for additional information.

### 3 ..... If your area is listed in a Special Rules section:

Read Special Rules Instructions on bottom of page 20. If your area is NOT listed in the Special Rules (pages 25-87) then all the Statewide Rules apply.

### 4 ..... The following terms are used frequently in the Special Rules:

*Catch-and-release, Chumming, Daily Limit, Fly Fishing Only, Juvenile Only, Landlocked Salmon Rules, Length, Maximum Size, Minimum Size, Night Closure, Non-Buoyant Lure Restriction, Selective Gear Rules, Release wild Steelhead, Release wild Chinook, Release wild Coho or Release wild Cutthroat. Definitions can be found on pages 14-16.*

Westside

Eastside

# Statewide Freshwater Rules

## Tackle

Hook and line angling only. Barbed or barbless hooks may be used, and a hook may be single, double, or treble, but not more than one line with up to three hooks per angler may be used.

Single barbless hooks are required in areas designated as "fly fishing only" or "selective gear rules," and while fishing for STURGEON.

All fishing gear must be kept in immediate control and may not be left unattended while fishing. Rodholders may be used but the rod must be easily removed without delay; rod may be left in holder while playing the fish. Downriggers may be used if the line releases from the downrigger while playing and landing the fish.

A club or dipnet may be used to assist landing a legal fish taken by legal gear. A gaff hook may not be used.

It is unlawful to chum or broadcast any substance to attract game fish, unless specifically authorized by the Special Rules.

Where use of bait is prohibited, or where lures or flies are used voluntarily, game fish may be caught and released until the daily limit is retained. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

See Shellfish/Seaweed section for CRAWFISH rules.

## Seasons

**The following rules and seasons apply unless listed otherwise in the Special Rules. Freshwater areas are open 24 hours per day when open.**

**LAKES, PONDS AND RESERVOIRS** are open to fishing for game fish (except Dolly Varden/Bull Trout and grass carp) YEAR-ROUND.

**RIVERS, STREAMS AND BEAVER PONDS** are open to fishing for GAME FISH (except Dolly Varden/Bull Trout and grass carp) JUNE 1- OCTOBER 31.

ALL FRESHWATER AREAS are CLOSED to fishing for SALMON, Dolly Varden/Bull Trout and GRASS CARP unless listed as open in Special Rules. Fishing for COMMON CARP, STURGEON, SHAD, or SMELT (unless specifically noted in Special Rules) is open only during open game fish or salmon seasons.

## Sturgeon

Catch Record Cards are required statewide. **Annual STURGEON limit is 10 fish even if the angler holds both a Washington and Oregon license.** In Columbia River waters forming the boundary between Washington and Oregon, STURGEON anglers may continue to fish (catch-and-release) after a daily or yearly limit has been retained.

Single barbless hooks and bait are required to fish for STURGEON. In the field, eggs must be retained with intact carcass of fish from which they came. **STURGEON fishing is not allowed at night.**

Any STURGEON not to be retained must be released immediately. Oversized STURGEON cannot be removed totally or in part from the water.

**TAGGED STURGEON:** Do not remove tags from fish not of legal size or that will not be retained, but record: tag number and color, date and location of catch, fish length, your name and address. If fish is retained, remove tag and send with above information to WDFW Vancouver office.

**Wild STEELHEAD, DOLLY VARDEN/BULL TROUT, and SALMON may only be kept where specifically authorized in the Special Rules.**

## "Open Listings"

An "open" listing does not authorize anglers to trespass on private property (which often includes the bed of the stream) or reservation lands. Please respect private property and reservation boundaries by contacting the land owner before entering reservation lands or waters.

## Special Rules Instructions

The Special Rules (pages 25-87) list freshwater areas where the Statewide Freshwater Rules and the Statewide Freshwater Species Rules have been modified.

**Unless listed in the Special Rules, all Statewide Rules remain in effect.**

For All Game Fish and SALMON the Special Rules show all of the fishing opportunities for each freshwater area listed.

**EULACHON** (Columbia River smelt) may not be retained in the Columbia River or its tributaries unless authorized by emergency rule.

The terms "**All Game Fish**" and "**Other Game Fish**" include the Game Fish species on definitions pages, except Dolly Varden/Bull Trout and GRASS CARP.

**The term TROUT includes: STEELHEAD, BROWN, CUTTHROAT, RAINBOW, LAKE, GOLDEN and EASTERN BROOK TROUT; GRAYLING; KOKANEE; LANDLOCKED ATLANTIC, COHO, AND CHINOOK SALMON.**

County references after lakes or streams are there to make it easier to locate the waters listed, or to differentiate between two places with the same name. They do not mean that the rules apply only to the portion of water in that county.

References in the Special Rules to "motors prohibited" mean fishing from a floating device equipped with a motor is prohibited. "Internal combustion engines prohibited" means fishing from a floating device equipped with an internal combustion engine is prohibited. "Equipped with" means the motor is attached to the floating device, regardless of whether the motor

is in the water.

In the Special Rules, all seasons for named lakes in Grant and Adams counties apply to inlet and outlet streams. In Grant, Adams, Franklin, Okanogan and Douglas counties, you may fish up to the base of all man-made dams or other obstructions (in listed and unlisted areas), except Zosel Dam. Benton County rivers, streams and beaver ponds are open year-round.

Lakes with this icon have lake access areas, which usually, but not always, include a boat ramp.

For SMELT, COMMON CARP, SHAD and STURGEON, the Statewide Freshwater Species Rules apply unless one of these four species is listed in the Special Rules.

# Statewide Freshwater Species Rules

## Game Fish

Possession Limit for Game Fish is 2 Daily Limits in any form.

SPECIES	ADDITIONAL RULES
BASS (See DOH advisory, page 22)	No min. size. Daily limit 5. Only BASS less than 12" or greater than 17" may be retained. No more than 1 over 17" may be retained. Bass may be caught, retained, and released alive from a livewell until a daily limit is in possession.
TIGER MUSKELLUNGE (MUSKY)	Min. size 36". Daily limit 1.
WALLEYE	Min. size 16". Daily limit 5. No more than 1 over 22" may be retained. WALLEYE may be caught, retained, and released alive from a livewell until daily limit is in possession.
WHITEFISH	No min. size. Daily limit 15.
BURBOT (FRESHWATER LING)	No min. size. Daily limit 5. Set lines with not more than 5 hooks may be used where listed in the Special Rules. Set lines must be clearly identified with the angler's name and address.
CHANNEL CATFISH	No min. size. Daily limit 5.
CRAPPIE, NORTHERN PIKE, NORTHERN PIKEMINNOW, PEAMOUTH CHUB, PERCH, SUCKERS, SUNFISH, CATFISH (except CHANNEL), BULLFROGS	No min. size. No daily limit. BULLFROGS must be taken by angling, hand-dip netting, spearing (gigging) or with bow-and-arrow (no license required).
GRASS CARP	CLOSED.
<b>TROUT:</b>	<b>The combined daily limit for an angler that fishes in both rivers and lakes on the same day is 5 TROUT. In the combined daily limit, only 2 TROUT may be from rivers, except as provided for EASTERN BROOK TROUT.</b>
BROWN TROUT RAINBOW TROUT GOLDEN TROUT GRAYLING	<p><b>CUTTHROAT TROUT</b> <b>LAKE TROUT</b> <b>KOKANEE</b> <b>LANDLOCKED ATLANTIC, CHINOOK, AND COHO SALMON.</b></p> <p><b>In rivers, streams &amp; beaver ponds:</b> Min. size 8". Daily limit 2. When fishing with bait, all TROUT (except STEELHEAD) equal to or greater than the minimum size are counted as part of the daily limit whether kept or released.</p> <p><b>In lakes, ponds, &amp; reservoirs:</b> No min. size. Daily limit 5. When fishing with bait, all TROUT (except STEELHEAD) equal to or greater than the minimum size are counted as part of the daily limit whether kept or released.</p>
EASTERN BROOK TROUT	
STEELHEAD	<b>In rivers:</b> No min. size. Daily limit 5. Anglers may keep up to 5 EASTERN BROOK TROUT, but no more than 5 TROUT total, and no more than 2 can be other TROUT species.
DOLLY VARDEN/BULL TROUT	Min. size 20". Daily limit 2. No more than 2 STEELHEAD may be retained as part of TROUT combined daily limit. Where wild STEELHEAD are listed as open in the Special Rules, no more than 1 wild STEELHEAD may be retained per day. Annual limit 30 STEELHEAD of which no more than 5 may be wild STEELHEAD. STEELHEAD may be caught and released until the daily limit is retained.
	When listed as open under the special rules, count as part of the TROUT combined daily limit for rivers and lakes.

**Release of wild STEELHEAD and Dolly Varden/Bull Trout is required year-round in freshwater areas, unless specifically exempted in the Special Rules.**

## Food Fish

SPECIES	ADDITIONAL RULES/POSSESSION LIMIT
COMMON CARP, SHAD	No min. size. No daily limit. No possession limit. COMMON CARP may also be taken by spear or bow-and-arrow.
SALMON (Anglers may not continue to fish for SALMON after the adult portion of the daily limit has been retained.)	Possession limit - 2 daily limits in fresh form. An additional 40 pounds of SALMON may be possessed in frozen or processed form. ATLANTIC SALMON may be retained during any open trout or salmon fishery. There is no size limit or daily limit for ATLANTIC SALMON.
EULACHON (Columbia River Smelt)	CLOSED - Columbia River and tributaries.
OTHER SMELT and EULACHON outside the Columbia River system	No min. size. Daily limit 10 lbs. all species combined. Note: Daily limit is 10 lbs. in the aggregate with herring, sardines, sandlance and anchovies. Possession limit - 1 daily limit in fresh form. Additional SMELT may be possessed in a frozen or processed form. All SMELT caught must be kept and count toward the daily limit. SMELT may be taken by dip net.
STURGEON See the Special Rules for waters upstream of Bonneville Dam.	Min. size 42". Max. size 60". Daily limit 1. Possession limit - 2 daily limits. Annual limit 10.

Unless otherwise listed under the Special Rules sections, Statewide Freshwater Species Rules apply.

# Eat Fish? Read This! Advice from the Washington Department of Health on Eating Fish

**Statewide Bass Advisory:** Women of childbearing age and children under 6 should consume **NO more than 2 meals of bass per month.** This is based on information from a recent study of 20 lakes and rivers in Washington State. Smallmouth and largemouth bass had elevated levels of mercury in the majority of these lakes and rivers. Although this level of mercury is about half the national average, it is enough to raise a health concern.

**Statewide Fish Consumption Advisory for Mercury:** Women of childbearing age and children under six should not eat any shark, swordfish, tilefish, king mackerel or either fresh or frozen tuna steak, because of high levels of mercury. Women and children should also limit the amount of **canned tuna** they eat:

- Women of child-bearing years ..... 6 ounces per week (1 can per week)
- Child under age 6: who weighs 20 lbs. .... 1 ounce per week (1 tablespoon per week or 1/6th can per week)
- who weighs 60 lbs. .... 3 ounces per week (1/2 can per week)

**But... Keep Eating Fish!** Fish is good for you. It is a great source of low-fat protein. It has been linked to reduced risks of coronary artery disease and high blood pressure. **WISELY** choose the type of fish and the amount you eat. While eating fish regularly is encouraged by the Department of Health (DOH), certain locally caught fish from some state waterbodies may contain high levels of toxic chemicals. To protect you and your family's health, DOH and county health departments have issued fish consumption advisories for areas and species of concern. For advisories on specific bodies of water in Washington State see the table below:

## Fish Advisory and Consumption Recommendation Chart

Body of Water/Location	Species	Women of child bearing age	Children <6 years	General Population

Yakima River/ Yakima Co.	Mountain whitefish, carp, bottomfish, bridgelip sucker		All Groups: 4 meals/month All Groups: 4 meals/month	

Note: An adult meal size is 8 ounces; a child's meal is assumed to be smaller, based on body size.

**Additional Information:** Anglers are encouraged to contact DOH or your local health department for updated advisories, information on health effects, and fish cleaning and cooking methods to reduce exposure to some contaminants. **Call DOH toll-free at 877-485-7316** or visit the DOH website at [www.doh.wa.gov/fish/](http://www.doh.wa.gov/fish/).

## Department of Health Shellfish/Seaweed Advisory

Shellfish or seaweed may be contaminated from exposure to bacteria, biotoxins, viruses, or chemicals. Consumption of contaminated shellfish or seaweed can pose a health risk to humans. One potential biotoxin is Paralytic Shellfish Poisoning (PSP) also called "red tide." PSP becomes a problem when clams, oysters, scallops, mussels, or other shellfish consume and concentrate a microscopic algae which contains a potentially lethal biotoxin. Symptoms include numbness of the tongue and lips, and tingling in the extremities and fingertips. This may be followed by loss of muscular control and difficulty in breathing. Amnesic Shellfish Poisoning (ASP) results when shellfish concentrate a different biotoxin called domoic acid. Symptoms of ASP include abdominal cramps, diarrhea, vomiting, disorientation, dizziness, and memory loss. If any of these symptoms occur after eating shellfish, get immediate medical attention.

Marine Toxin Levels can change rapidly: Contact the Department of Health Marine Biotoxin Hotline 1-800-562-5632 or check the Internet [www.doh.wa.gov/ehp/sf/biotoxin.htm](http://www.doh.wa.gov/ehp/sf/biotoxin.htm). Do not harvest in areas listed as closed on the Biotoxin Hotline, also avoid taking other shellfish which eat clams (such as moon snails or hairy tritons).

# Selected Washington Game Fish

**Rainbow Trout**

Body color is variable and may be silvery in lakes and reservoirs. It has a red to pink streak on its side and irregular spotting. There are no teeth on the back of the tongue.

**Steelhead (Female)**

Steelhead are ocean-run rainbow which run in both summer and winter seasons, returning after one to three years at sea.

**Cutthroat Trout**

Body color is variable. The maxillary (upper jaw bone) usually extends beyond the margin of the eye. The hyoid teeth are behind the tongue. There may be a red or orange slash on the underside of the jaw. Spotting is more closely grouped toward the tail. Sea-run coastal cutthroat return in fall after one year in an estuary.

**Brown Trout**

This trout's back is brown or olive with large spots. Sides are light brown to yellowish with large dark spots surrounded by halos of blue-gray. The tail has few spots.

**Golden Trout**

Coloration is brilliant and distinct with a green back and gold-toned sides. There are a few spots below mid-point of the body and white tips on the dorsal, anal and pelvic fins. Parr marks show on the side of the body.

**Brook Trout**

Dark green or blue with white belly, its upper body and dorsal fin have wormlike markings. Its sides have yellow and pink spots with blue rings. The lower fins are white-tipped and the tail is square.

**Lake Trout (Mackinaw)**

Dark gray or gray green above with a light gray to white belly. Colored spots are absent, fins have small white borders, and the tail is forked. It inhabits large, deep lakes.

**Dolly Varden/Bull Trout**

This fish is olive green to brown above and on the sides with no wormlike markings. There are cream or crimson spots. The tail is slightly forked. Dolly Varden are a sea-run version, more silvery in color, and spend one year in an estuary. Bull trout are found in Eastern and Western Washington, usually in larger reservoirs.

**Kokanee (Silver Trout)**

Its back is greenish blue to silver with faint speckling. The sides and belly are silvery with no distinct spotting. When kokanee spawn in fall, their sides turn red to scarlet. The inside of the mouth is white, not black as in some salmon.

**Whitefish**

Coloration is light grayish-blue on black with silvery sides and a dull, whitish belly. It has large scales, and a small mouth without teeth.

# Selected Washington Game Fish

**Largemouth Bass**

This bass is dark green on the back and sides, with a dark, horizontal band along its sides. The belly is white. The large jaw, when closed, extends behind the eye.

**Smallmouth Bass**

This bass is dark olive to brown on the back, with a white belly. The sides are bronze and have dark vertical bands. The small jaw does not extend behind the eyes.

**Bluegill**

The bluegill is olive green to bluish with a blue and orange lower body. It has vertical bars on each side and solid black gill opercular lobes.

**Walleye**

Coloration is black to brown on a whitish background. The lower portion of the tail fin is also whitish. It has a dark spot on the first dorsal fin, but no strong cross bars on the sides. The teeth are elongated.

**Yellow Perch**

This perch has a greenish to yellow body, a white belly, and vertical dark crossbars on each side. There are no prominent teeth.

**Crappie**

The body is silvery, with dark spots. The fins have dark bands. White crappie may have vertical bars on the sides.

**Bullhead**

The body is darkish-black to brown. Its head is not as flat as a channel catfish. The cat-like barbels on its mouth are brown or yellow. The skin has no scales, there are no spots on the side, and the tail is not forked.

**Channel Catfish**

The body goes from blackish to silvery to white on the sides. There may be some small irregular spots on the sides. Its skin lacks scales. It has cat-like black barbels on the mouth and jaw, a flat head and forked tail.

# Marine Area Rules

## 1 ..... Season and Daily Hours:

Fishing for fin fish is CLOSED in marine waters unless a season is specifically authorized for a species under the Marine Area Rules. During an open season, marine waters are open 24 hours per day, except as noted for night closures.

## 2 ..... Quota Management:

SALMON, HALIBUT and some SHELLFISH are managed by quotas in many marine areas. These fisheries close when the quotas have been taken. Closures will be announced to local news media and included in the Fishing Hotline and Shellfish Rule Change Hotline messages.

**NOTE:** Emergency rules may occur throughout the year and will supersede the rules contained in this pamphlet. Changes can be found by contacting the WDFW Fishing Hotline, the Shellfish Rule Change Hotline, statewide customer service, and are also available on the WDFW website. (See contact information on page 5.)

Rules listed below are General Rules. Specific Area Rules are listed by area.

### Species Rules

**STEELHEAD** may be caught and released until the daily limit is retained. If a fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

**DOLLY VARDEN/BULL TROUT** - CLOSED

**SALMON** - Barbless hooks only, except barbed hooks may be used while fishing from the Columbia River North Jetty. Only single hooks and a hand-held rod and line may be used in Areas 1-4. Multiple point hooks and hand-held lines are legal in other saltwater areas. Minimum size for CHINOOK in Areas 1-4 is 26", in Areas 5-13, 22", except in the Hoodport Hatchery Zone. Minimum size for COHO in Areas 1-4 is 16" except in Area 2-1 after Aug. 15 and Area 2-2 after Aug. 31, the minimum size is 12" for all SALMON. Other areas and species - no minimum size.

**STURGEON** - Single barbless hooks are required. Lures are not allowed.

**HALIBUT** - Hook and line angling and spearfishing only. A hand-held line is permitted. Only one line with up to two hooks may be used. HALIBUT may be shot while landing with a gaff or dip net. May not be landed in a port closed to HALIBUT fishing except halibut lawfully caught in Canada; fisher must have Canadian license.

**BOTTOMFISH, TUNA, AND MACKEREL** - Hook and line angling, spearfishing, and bow and arrow fishing only.

**FORAGE FISH** - Forage fish jig or forage fish dip net only. Only one dip net may be used at a time. Gear must be held by the rigid handle at all times and may not be used from a vessel while under power. Holders of disability license may use a forage fish dip net with a hand-operated gate.

Jig gear may have up to three treble hooks or nine single hooks, not to exceed 3/8" between point and shank. While fishing for food fish in Areas 5-13, a second line using forage fish jig gear may be used to fish for forage fish.

### Species Rules

**ROCKFISH** - You may not land YELLOWEYE rockfish into any port in Marine Areas 1-13. You may not land CANARY rockfish into any port in Marine Areas 1-13 unless the adjacent waters are open to retention of CANARY rockfish and a landing may not exceed the allowable catch from the adjacent waters.

### Tackle/Gear Rules

**HOOK AND LINE ANGLING** - Unless noted differently, only one line with up to 2 hooks are allowed. Barbless hooks only for all species in Marine Areas 5-13, except forage fish jig gear.

**ALL FISHING GEAR** - Must be kept in immediate control and gear may not be left unattended while fishing.

**LANDING A FISH** - A club or dipnet (landing net) may be used to assist landing a legal fish taken by legal gear. A gaff may only be used to land a legally hooked halibut, tuna, or dogfish shark which will be retained.

**DOWNRIGGERS** - May be used with a line if the line releases from the downrigger while playing and landing the fish.

**ROD HOLDERS** - May be used; the rod must be easily removed without delay; rod may be left in the holder while playing the fish.

**ELECTRIC REELS** - May be used if designed for sport fishing and attached to a fishing rod.

**SPEARFISHING** - The diver must be swimming or floating in the water while spearfishing. The use of explosives or bullets attached to the spear ("bang sticks") is prohibited.

### Possession Limits

**MARINE AREAS 1-6:** Fishers aboard a boat may only possess one daily limit of fish or SHELLFISH in fresh form.

**SALMON** - Two daily limits of fresh SALMON. An additional 40 pounds of salmon may be possessed in a frozen or processed form.

**TROUT** - Two daily limits of hatchery steelhead. Annual limit 30.

**STURGEON** - Two daily limits in any form. Annual limit 10.

**BOTTOMFISH** - Two daily limits in any form.

**HALIBUT** - Two daily limits in any form, except only one limit while aboard the fishing vessel.

**TUNA AND MACKEREL** - No possession limit.

**SHELLFISH** - One daily limit of fresh SHELLFISH. Additional SHELLFISH may be possessed in a frozen or processed form. See page 118 for Shellfish/Seaweed rules and page 119 for the shellfish health advisory.

**FORAGE FISH (HERRING, ANCHOVIES, SARDINES, SAND LANCE and SMELT)** - Two daily limits in fresh form. Additional forage fish may be possessed in frozen or processed form.

**OTHER MARINE FISH** - One daily limit in any form.

In areas where a saltwater license is valid, each fisher aboard a vessel may continue to deploy angling gear or shellfish gear until the daily limit of food fish and SHELLFISH for all licensed and juvenile anglers aboard has been achieved.

  - 2-2. GRAYS HARBOR - east of a line from the tip of the North Jetty to exposed end of the South Jetty.
3. LAPUSH - from the Queets River north to Cape Alava.
4. NEAH BAY - from Cape Alava north and inside Juan de Fuca Strait to the Sekiu River.
5. SEKIU AND PILLAR POINT - from mouth of the Sekiu River east to Low Point, mouth of the Lyre River.
6. EAST JUAN DE FUCA STRAIT - from Low Point east to the Partridge Point - Point Wilson line north to the line from Trial Island (near Victoria B.C.) - Vessel Traffic Separation Buoy "R" - Smith Island to the Lawson Reef Buoy to Northwest Island to the Initiative 77 marker on Fidalgo Island.
7. SAN JUAN ISLANDS - all marine waters north of the Trial Island line described under Area 6 to the United States-Canada boundary.
  - 8-1. DECEPTION PASS, HOPE ISLAND, AND SKAGIT BAY - from West Point to Reservation Head eastward through Deception Pass, including all waters of Swinomish Slough and Skagit Bay, and the portion of Saratoga Passage north and west of a line from East Point Light to light on Camano Island (Saratoga Pass Light #4FI Red 4 Sec.).
  - 8-2. PORTS SUSAN AND GARDNER - east of East Point Light-Camano Island Light line (described in 8-1 above) and north of the Possession Point-Shipwreck line (described in 9 below).
9. ADMIRALTY INLET - all waters inside and south of the Partridge Point - Point Wilson line, south and west of a line from Possession Point 110° true to shipwreck, north of the Hood Canal Bridge, and north of the Apple Cove Point-Edwards Point line.
10. SEATTLE-BREMERTON AREA - south from the Apple Cove Point-Edwards Point line to a line projected true east- west through the north tip of Vashon Island.
11. TACOMA-VASHON ISLAND - south from a line projected true east west through the north tip of Vashon Island to the Tacoma Narrows Bridge.
12. HOOD CANAL - all waters south of the Hood Canal Bridge.
13. SOUTH PUGET SOUND - all waters south of Tacoma Narrows Bridge.

# Salmon Identification

## OCEAN PHASE

### Chinook Salmon

Large black spots on back, dorsal fin, and both the upper and lower lobes of the tail. Dark mouth with a black gum line. Average size scales. Silver pigment on the tail. Prominent teeth.

### Coho Salmon

Black spots on back with a few spots on the upper portion of the tail. White mouth with a white gum line and dark tongue. Average size scales. Silver pigment on the tail.

### Chum Salmon

No prominent spots on back or tail (small speckles may be present). White mouth with a white gum line and dark tongue. Large scales. Caudal peduncle (tail base) is slender. Silver pigment on the tail.

### Pink Salmon

Generally large black spots on back and heavy oval shaped black blotches on the upper and lower lobes of the tail. White mouth with a black gum line and tongue. Very small scales. No silver pigment on the tail. Flexible (rubbery) lower jaw.

### Sockeye Salmon

No prominent spots on back or tail (small speckles may be present). White mouth with a white gum line and dark tongue. Average size scales. Prominent gold-colored eyes. No silver pigment on the tail. Small teeth.

## SPAWNING PHASE

### Chinook Salmon

Chinook Salmon do not display the conspicuous morphological changes of pink, chum and sockeye salmon during the spawning stage. Typically, Pacific salmon turn from the silvery bright ocean coloration to a darker color as they approach spawning. Chinook are often the largest of the Pacific salmon, and the large size is characteristic in mature fish.

### Coho Salmon

In mature male coho salmon, the upper jaw forms an elongated hooked snout and the teeth become greatly enlarged. The spawning color of the male is generally brighter than that of the female and is characterized by the dorsal surface and head turning bluish-green. The sides of the males develop a broad red streak. In females, the jaws also elongate but the development is much less extreme than of the males.

### Chum Salmon

Chum salmon display characteristic olive-green and purple (calico) vertical bars on the sides of the body as they approach the spawning phase. Both males and females develop hooked noses and large canine-like teeth, although the males characteristics are more pronounced.

### Pink Salmon

As male pink salmon begin to enter the spawning phase, they develop a prominent hump in front of the dorsal fin like that of the male sockeye salmon. Males develop a characteristic elongated snout and large teeth. Body color in both males and females darkens from a bright silvery appearance to a pale slate, brownish, or greenish-gray on the back and sides and a pale whitish color below. Small, oblong irregular black spots are present on the back and sides, and on the dorsal and tail fins.

### Sockeye Salmon

Sockeye salmon turn bright red on their body, and olive-green on the head as they begin to enter the spawning phase of their life. Males of this species develop a prominent hump in front of the dorsal fin. Also, the male's snout becomes elongated and canine-like teeth grow out of the receding gums. Females undergo distinct color change but retain their body shape.

# Atlantic Salmon

Male Atlantic salmon

Female Atlantic salmon

Atlantic salmon have large black spots on the gill covers and back, with rarely any spots on the tail fin. Their scales are large, there is no red stripe along the lateral line and they have 8-10 anal fin rays. Atlantic salmon may be taken from marine waters during any open salmon season, and from anadromous (not landlocked) freshwater during any open salmon or trout season. Anglers may not, however, continue to fish for Atlantic salmon after a daily limit of another species of salmon has been retained. In landlocked lakes, Atlantic salmon may be taken as part of the trout daily limit. Seasons and size limits in place for trout apply to Atlantic salmon in landlocked lakes. Opportunities to harvest Atlantic salmon beyond those listed in the pamphlet will be announced to the news media and carried on WDFW's recreational fishing hotline.

## Coho and Chinook Salmon Identification

Coho salmon have black spots on back with a few spots on the upper portion of the tail, and a white mouth with a white gum line and dark tongue.

Chinook have large black spots on back, dorsal fin, and both the upper and lower lobes of the tail, and a dark mouth with a black gum line.

## Wild/Hatchery Identification

In order to provide salmon & steelhead fishing opportunities, WDFW and the Tribes have marked salmon & steelhead by clipping the adipose fin (a small fatty fin directly behind the dorsal fin). In areas designated "release wild <insert fish name>", fin clipped salmon & steelhead are the only fish that may be retained. The picture to the right shows a wild coho salmon and a fin clipped or hatchery coho salmon. Please be careful in releasing wild fish— they are your fishing future! For tips on the best way to release fish, please see page 7.

**Hatchery coho**  
Adipose fin has been clipped – leaving a healed scar in its place.

**Wild coho**  
Intact adipose fin.

# Marine Fish Identification

## Yelloweye Rockfish

Orange-red to yellow body color, bright yellow eye, fins may be tinged with black. Also called rasphead rockfish and red snapper. A large rockfish.

## Canary Rockfish

Bright orange or yellow body, mottled with grey. Fins are orange without black tinge. Three stripes across the head.

## Black Rockfish

Body black or grey in color. Two fins on back. Also called seabass and black bass.

## Quillback Rockfish

Body brown with yellow mottling. High fin on back with yellow mottling. May have freckles on head and throat. Spines on head.

## Copper Rockfish

Body variable in color with light colored stripe along the rear. Two fins on back.

## Pacific Cod

Brown to grey body with lighter mottling. Three fins on back and a large "whisker" under lower jaw. Also called true cod and grey cod.

## Walleye Pollock

Body brown with mottling. Three fins on back. The "whisker" under lower jaw is absent or very small.

## Pacific Hake

Body dark or silver grey becoming silvery below. Two fins on back, the second being deeply notched. Black inside of mouth. Large mouth with sharp teeth. Also called whiting.

## Cabezon

Body olive green to grey with lighter mottling. Two fins on back. Flaplike cirrus on head. Small teeth.

## Lingcod

Body dark brown, grey or green with mottling on sides. A single long fin on back with only one notch. Large mouth with large teeth. Can reach five feet in length.

## WDFW Tagging

The Department of Fish and Wildlife has released millions of CHINOOK and COHO salmon with microscopic coded-wire tags implanted in their heads. At one time, these fish also had their adipose fins removed. However adipose fin removal is now used to indicate hatchery-origin CHINOOK and COHO. The missing adipose fin no longer is a marker for coded-wire tagged SALMON. WDFW samplers carry equipment to detect tags and will be collecting only the heads that actually carry a tag.

# Shellfish/Seaweed Rules

1 ..... Read:

The general information below.

2 ..... Choose:

The Shellfish/Seaweed species you are going to harvest and read those rules.

3 ..... Before Harvesting clams, mussels or oysters:

Check the Public Beach List to determine if a beach is open, has special rules or if there are health restrictions.

4 ..... Marine Toxin Levels can change rapidly:

Contact the Department of Health Marine Biotoxin Hotline 1-800-562-5632 or check the Internet [www.doh.wa.gov/ehp/sf/biotoxin.htm](http://www.doh.wa.gov/ehp/sf/biotoxin.htm). Do not harvest in any area listed as closed on the Biotoxin Hotline, also avoid taking other shellfish which eat clams (such as moon snails or hairy tritons).

**NOTE:** Emergency rules may occur throughout the year and will supersede the rules contained in this pamphlet. Changes can be found by contacting the WDFW Fishing Hotline, the Shellfish Rule Change Hotline, statewide customer service, and are also available on the WDFW website. (See contact information on page 5.)

## Safe Handling Practices

- Water color does not indicate shellfish safety.
- Rinse your catch in salt (not fresh) water. Quickly cool your catch on ice or in a refrigerator and cook as soon as possible.
- Wash all seaweed before eating.
- Cook shellfish adequately before eating. This does not destroy biotoxins, but can help prevent illness caused by naturally occurring bacteria or bacteria caused by pollution.
- Cooking, rinsing, or freezing does not destroy biotoxins. CRAB can also concentrate biotoxins in their internal organs. Clean crabs before cooking. Eat only the meat. Eating shellfish with high concentrations of biotoxins may cause illness or death!

## Shellfish Enhancement

Some beaches have increased harvest opportunity as a result of WDFW enhancement activities. If a beach is open for CLAMS, MUSSELS or OYSTERS, harvest is encouraged within these areas, which are marked with signs attached to yellow posts (see Intertidal Enhancement below Beach List on page 121).

## Possession Limit

One daily limit in fresh form. Additional shellfish may be possessed in frozen or processed form.

## Marine Toxins & Pollution

SHELLFISH or SEAWEED may be contaminated from exposure to bacteria, biotoxins, viruses, or chemicals. Consumption of contaminated SHELLFISH or SEAWEED can pose a health risk to humans. Two potential biotoxins are Paralytic Shellfish Poisoning (PSP) also called "red tide" and Amnesic Shellfish Poisoning (ASP). PSP becomes a problem when clams, oysters, scallops, mussels, or other shellfish consume and concentrate a microscopic algae which contains a potentially lethal biotoxin. Symptoms include numbness of the tongue and lips and tingling in the extremities and fingertips. This may be followed by loss of muscular control and difficulty in breathing. Amnesic Shellfish Poisoning (ASP) results when shellfish concentrate a different biotoxin called domoic acid. Symptoms of ASP include abdominal cramps, diarrhea, vomiting, disorientation, dizziness, and memory loss. If any of these symptoms occur after eating shellfish, get immediate medical attention. See DOH advisory, page 22.

## License

A Shellfish/Seaweed License is required for all SHELLFISH (except crawfish) and SEAWEED harvest and must be displayed on the outside of clothing during shellfish harvest and transport. A license is not required for unclassified marine invertebrates even though daily limits exist. A catch record card is required to fish for Dungeness crab. (See License Requirements, pages 10-11). Everyone claiming catch must actively participate in the harvesting unless they possess a designated harvester card.

## Tideland Ownership

Most Puget Sound, Hood Canal, Grays Harbor and Willapa Bay beaches are privately owned. SHELLFISH/SEAWEED may not be taken from private beaches without the owner's or lessee's permission. When harvesting from public beaches, remain within the public beach boundaries. Private tideland owners and lessees, and members of their immediate family (grandparents, parents, spouse, siblings, children, and grandchildren) are exempt from personal use daily limits and shellfish licenses when taking CLAMS, OYSTERS, and MUSSELS harvested for their own personal use from their own tidelands. Daily limits apply for all other shellfish, all other people, and all other beaches. Everyone harvesting shellfish in excess of the daily limit for presumed commercial purposes needs a shellfish certification from the Department of Health (see RCW 69.30.010(8)). Tideland owners should contact Fish and Wildlife Enforcement or the Department of Health for specific rules.

**For all Shellfish Species, see Marine Area maps for closures pertaining to the following areas:** San Juan Islands Marine Preserve (Area 7); Edmonds Public Fishing Pier, Brackett's Landing Shoreline Sanctuary, Keystone Conservation Area, and Admiralty Head Marine Preserve (Area 9); Elliot Bay Public Fishing Pier, Orchard Rocks Conservation Area, and Eagle Harbor (Area 10); Des Moines Fishing Pier, Les Davis Fishing Pier, Colvos Passage Marine Preserve, City of Des Moines Park, and South 239th Street Park (Area 11); Sund Rock Conservation Area, Waketickeh Creek Conservation Area and Octopus Hole Conservation Area (Area 12); and Saltar's Point Conservation Area, Titlow Beach Marine Preserve and Zees Reef Marine Preserve (Area 13).

# Health Restrictions/Clams, Oysters and Mussels

Before harvesting shellfish check the PSP hotline (1-800-562-5632), on the internet <http://www.doh.wa.gov/ehp/sf/biotoxin.htm> or with the Department of Health at (360) 236-3350. If you need further assistance, contact the county health department.

The Department of Health (DOH) has harvest advisories on the following beaches. An advisory is placed on beaches that MAY be subject to periodic contamination from pollution sources or intersect polluted areas. Check the DOH website for details or contact the county health department prior to harvesting these beaches.

# Public Beach List - Special Rules

The following pages list public beaches with special rules because of resource needs and/or restrictions on harvest due to health concerns. **If a beach is not listed, it is open for recreational harvest year-round unless closed by emergency rule or marine toxins/PSP levels.** Not all public beaches have been evaluated by the State Department of Health, so the health risk of an unlisted beach may not be known. If you have questions about safety on any beach, call the local county health department or the State Health Department at (360) 236-3350. In addition, local health departments may have posted beaches within their jurisdiction that are not listed here - look for warning signs. See Marine Area maps for beach locations, marine preserves and conservation areas.

## Specific Closures

**For all Shellfish Species, see Marine Area maps for closures pertaining to the following areas:** San Juan Islands Marine Preserve (Area 7); Edmonds Public Fishing Pier, Brackett's Landing Shoreline Sanctuary, Keystone Conservation Area, and Admiralty Head Marine Preserve (Area 9); Elliott Bay Public Fishing Pier and Orchard Rocks Conservation Area; Des Moines Fishing Pier, Les Davis Fishing Pier, Colvos Passage Marine Preserve, City of Des Moines Park, and South 239th Street Park (Area 11); Sund Rock Conservation Area, Waketickeh Creek Conservation Area and Octopus Hole Conservation Area (Area 12); and Salter's Point Conservation Area, Titlow Beach Marine Preserve and Zees Reef Marine Preserve (Area 13).

## Intertidal Shellfish Enhancement Program

FOR PUBLIC USE

**SHELLFISH ENHANCEMENT PROJECT**

PT. WHITNEY SHELLFISH LAB  
ENHANCEMENT PROJECT  
1000 P.T. WHITNEY ROAD  
BRINNON, WA 98320  
1-360-796-4601

WDFW shellfish program has planted several public beaches with oysters, clams and geoducks to increase harvest opportunity. The planted areas are identified on the beach by yellow colored fiberglass posts bearing signs as pictured at the left. When the beach is open, harvest is encouraged within the areas marked by these posts. The following planted beaches should provide good opportunity for the listed shellfish:

- DNR 24 - Oysters
- DNR 44A West Dewatto - Oysters
- Eagle Creek - Oysters
- Freeland CP - Clams
- Frye Cove CP - Oysters

# Common Intertidal Shellfish

## Pacific Razor Clam *Siliqua patula*

Grows to 6"; fragile, thin elongated shells are covered with shiny, tan laquer-like skin coating the shell. Found only on Pacific coastal beaches.

### OCEAN RAZOR CLAM BEACH DESCRIPTIONS

**Long Beach:** from North Head to Leadbetter Point (includes Seaview, Cranberry, Klipsan, Ocean Park and Oysterville).

**Twin Harbors:** Cape Shoalwater to the Grays Harbor South Jetty (includes North Cove, Grayland, and Westport).

**Copalis:** Grays Harbor North Jetty to the Copalis River (includes Ocean Shores, Oyhut, Ocean City, and Copalis).

**Mocrocks:** Copalis River to the southern boundary of the Quinault Indian Nation (includes Iron Springs, Roosevelt, Pacific Beach, and Moclips).

**Kalaloch:** Olympic National Park South Beach Campground to Brown's Point (just south of Olympic National Park Beach Trail #3).

### PERMANENT RAZOR CLAM RESERVE CLOSURES (Areas marked with posts and signs)

Razor clam sanctuaries (Reserves) are 1/4 mile sections of coastal ocean beaches located on three beach areas that are used to assist in the management of the razor clam resource. The three areas are marked with metal posts and are signed to designate a "no digging" area. The three areas are:

**Copalis Beach Reserve** - from a point 4/10 of a mile south of the Ocean City approach (2nd Ave.) and extending south for 1/4 mile.

**Twin Harbors Reserve** - from the middle of the County Line Road approach south for 1/4 mile.

**Long Beach Reserve** - beginning 2.7 miles north of the Oysterville approach and extending north for 1/4 mile.

# Selected Unclassified Marine Invertebrates

## Moon Snail

The Moon Snail inhabits clean sandy beaches protected from heavy surf, and fairly protected beaches where the sand is mixed with mud, from intertidal to deep water. It is one of the largest snails on our coast. Its light brown shell is about 4 3/4" in height and made up almost entirely of one great whorl.

## Sea Lemon Nudibranch

Common in the low intertidal zone on moist rocks, in tidepools, and on pilings. This is one of the largest and most conspicuous nudibranchs, usually 2 1/2" long. Sea Lemons are bright yellow or orange in color with black, peppery dots. They have horn-like antennae at the front end and feathery gills near the rear end.

## Opalescent Nudibranch

Found in a variety of habitats; on rocky shores among seaweeds, in eelgrass beds, dock pilings, mud flats, and in kelp. This beautiful nudibranch is white with orange or red streaks, and a blue line, like a neon light, decorates each side. Generally about 1 1/2" long.

## Oyster Drill Snail and Egg Case

The shell is about 1 1/2" with ornate ridges commonly attached to clam and oyster shells. Egg cases are yellow to reddish. A voracious predator of marine bivalves. Do not transport from one beach to another.

# Common Intertidal Shellfish

These four species have a 1 1/2" minimum size limit, unless otherwise noted on the public beach list.

Manila littleneck clam  
*Tapes philippinarum*

Average size is 1-2", up to 2 1/2". Oblong shell has concentric and radiating lines. May have colored, patterned shells. Siphon tips are split. Found to 4" below surface.

Native littleneck clam  
*Protothaca staminea*

Average size is 1-2", up to 2 1/2". Rounded shell has concentric and radiating lines. Found 6-10" below surface.

Cockle clam  
*Clinocardium nuttallii*

Prominent, evenly-spaced ridges which fan out from the hinge. Mottled, light brown. Can grow to 5". Found just below surface.

Butter clam  
*Saxidomus giganteus*

Average size is 3-4", up to 6". Shells are usually chalky-white with no radiating ridges. The siphon can be pulled into its shell. Usually found 12-18" below surface.

(Not to scale)

Geoduck clam  
*Panopea abrupta*

Heavy, oblong shell, rounded at one end. Appears cut-off at the other. The siphon can't be retracted. Found 2-3 feet below surface. Can weigh up to 10 lbs.

Horse clam  
*Tresus capax* (shown)  
*Tresus nuttallii* (not shown)

Large, can be up to 8". Shell is chalky-white with yellow-brown patches of "skin". The siphon can't be pulled into shell and has a leather-like flap on the tip. Found 1-2 feet below surface.

(Eastern) Softshell clam  
*Mya arenaria*

Can grow to 6". Shells are soft, chalky-white with a rough irregular surface. Shell is rounded at the foot end, pointed at the siphon end. Found to 18" below surface.

Pacific oyster  
*Crassostrea gigas*

Irregular, chalky-white shell. Often found in groups attached to one another or a solid object.

Mussel  
*Mytilus trossulus* (shown)  
*Mytilus galloprovincialis* (not shown)

Grows to 3-6". Oblong, blue-black or brown shells. Attaches to solid objects by fine threads.

# Shellfish/Seaweed Species Rules

## CRAB:

May not retain Puget Sound king crab or box crab. See Possession Rules on page 118. Must release all softshell crab (underside of shell flexes with finger pressure - see below). Fishing instruments must not penetrate the shell. Catch record card required to fish for Dungeness crab.

AREA	SPECIES	SEASON	ADDITIONAL RULES
<b>PUGET SOUND</b> (including Hood Canal) Fidalgo Bay - crabbing is prohibited at all times within 25 yards of the Burlington Northern Railroad Trestle. Padilla Bay - crab gear may only be set or pulled from one hour before sunrise to one hour after sunset within 25 yards of the Burlington Northern Railroad Trestles located at the north end of Swinomish Slough.			
	Dungeness Red Rock	Opening for all fishing methods dependent on allocation and crab shell condition.	Min. size 6 1/4". Daily limit 6 males. Min. size 5". Daily limit 6 either sex.
<b>Check Shellfish Rule Change Hotline (1-866-880-5431) or website (<a href="http://www.wa.gov/wdfw/">www.wa.gov/wdfw/</a>) before fishing.</b>			
<b>COLUMBIA RIVER</b> Crab fishers may fish for crab in Oregon waters under Oregon rules and land into Washington ports of the Columbia River.			
	Dungeness Red Rock	Dec. 1-Sept. 15. <b>Pots.</b> Year-round. <b>Other gear.</b> Dec. 1-Sept. 15. <b>Pots.</b> Year-round. <b>Other gear.</b>	Min. size 5 3/4". Daily limit 12 males. Min. size 5". Daily limit 6 either sex.
<b>PACIFIC OCEAN</b> (Including Grays Harbor and Willapa Bay)			
	Dungeness Red Rock	Dec. 1-Sept. 15. <b>Pots.</b> Year-round <b>Other gear.</b> Dec. 1-Sept. 15. <b>Pots.</b> Year-round <b>Other gear.</b>	Min. size 6". Daily limit 6 males. Min. size 5". Daily limit 6 either sex.

### Pacific Graceful Crab

Look similar to Dungeness crabs but are small when full grown (4.5" across) and the presence of a diagnostic tooth behind the widest part of the shell.

### Dungeness Crab

White-tipped claws, brownish shell

### Red Rock Crab

Black-tipped claws, reddish shell, shell much wider than long

## Where and How to Measure for Minimum Size and Check for Shell Hardness

Caliper measurement at the widest part of the shell just in front of rear-most point or tips.

Abdomen of female and male Dungeness

# Shellfish/Seaweed Species Rules

**SHRIMP (Coonstripe, Humpy, Pink, Sidestripe, Spot)** All areas except Hood Canal and Port Angeles Harbor require 1 3/16" minimum carapace size for spot shrimp (see diagram below). Immediately release all sublegal spot shrimp unharmed. Each harvester must have a separate container for their catch, either in their possession or identified with their name. Shrimp heads may be removed while in the field, but must be retained (except in Hood Canal) for size verification. Allocation closures and/or depth restrictions may be required. For season closures and restrictions, before harvesting, check the Shellfish Rule change Hotline 1-866-880-5431 or the WDFW website: [www.wa.gov/wdfw/](http://www.wa.gov/wdfw/). Also see gear rules.

SEQUIM BAY and CARR INLET SHRIMP DISTRICTS	ALL SPECIES	CLOSED	See Marine Area 6 map, page 98. See Marine Area 13 map, page 116.
PACIFIC OCEAN	ALL SPECIES	Year-round. <b>Open Daily.</b>	Min. carapace size of 1 3/16" for SPOT SHRIMP. No min. size for other shrimp. Daily limit 10 lbs. head and tails all species combined.

## Spot Shrimp

Spot shrimp (*Pandalus platyceros*) are distinguished by four white spots on the body. **All Areas, except Hood Canal and Port Angeles Harbor, have a 1 3/16" minimum carapace size limit, measured from the base of the eyestalk to the top rear edge of the carapace.** Spot shrimp may reach 10" in total length.

## Pink Shrimp

Pink shrimp (*Pandalus eous* and *P. jordani*) are small (less than 6") and uniformly pink.

## Coonstripe (Dock) Shrimp

Coonstripe or dock shrimp (*Pandalus danae*) are brownish in color with brown lines and spots on the head and tail. This species may grow to 5 1/2" in length.

## Coonstripe (Humpback) Shrimp

The coonstripe or humpback shrimp (*Pandalus hypsinotus*) is mottled reddish-brown with some white patches on the head and tail. This species may reach 7 1/2" in length.

# Statewide Gear Rules - Crab, Shrimp and Crawfish

## Caution

Sportfishing rules for crab, shrimp and crawfish are subject to change based on allocation and/or soft shell conditions. Check the Shellfish Rule Change Hotline 1-866-880-5431 or watch your local media for potential changes. See individual species listings for seasons and other harvest rules.

One star trap, one ring net, or one pot is considered one unit of gear. The maximum number of units of gear that may be fished per person is:

<b>Puget Sound except Hood Canal:</b>	Two shrimp pots per person and no more than 4 shrimp pots may be on board or fished by any one boat. Two units of crab gear.
<b>Hood Canal</b>	One shrimp pot per person. No more than 4 shrimp pots may be on board or fished by any one boat. Two units of crab gear.
<b>Coastal waters:</b>	Two units total.
<b>All freshwater areas:</b>	Two units for crawfish.
<b>Columbia River Mouth (upstream of Buoy 10 line):</b>	Three units total.

Every shellfish pot, ring net, or star trap left unattended in Washington waters must have its own buoy line and a separate buoy that is permanently and legibly marked with the operator's first name, last name, and permanent address (telephone number is voluntary). Only one name and address may appear on a buoy. Buoy lines must be weighted sufficiently to prevent them from floating on the surface.

Buoys must be:

- Constructed of durable material (no bleach, antifreeze, or detergent bottles, paint cans, etc.).
- Visible on the surface at all times except during extreme tidal conditions.
- Half red and half white for crab (both colors should be displayed when in floating position). Yellow for shrimp. The personal marker flag and staff, if attached, may be any color.

It is illegal to pull an unattended shellfish pot, ring net, or star trap with a buoy that does not have your name on it. However, any angler may assist the person whose name is on the buoy while he or she is pulling the pot. Shrimp pots, crab pots, star traps and ring nets may not be tended from a vessel at night (one hour after sunset to one hour before sunrise).

All parts of ring nets and star traps must lie flat on the sea bottom and may not restrict free movement of crab until lifted. Shellfish pots must be covered by water at all times while being fished.

All crab, shrimp, and crawfish pots must be equipped with a biodegradable device consisting of either:

- (1) securing the pot lid hook or tiedown strap with a single loop of cord; or
- (2) sewing a 3" by 5" escape panel in the upper half of pot closed with cord; or
- (3) attaching the pot lid or one pot side (serving as a pot lid) with no more than three single loops of cord.

Cord used must be untreated 100% cotton or other natural fiber no larger than thread size 120 or 1/8". This cord, when attached as described above, must be able to rot away and allow crab, shrimp, crawfish, and fish to escape freely if the pot is lost. Minimum mesh size for crab pots is 1 1/2". All crab pots must have two 4 1/4" minimum inside diameter escape rings in the upper half of the pot, except in the Columbia River, where the minimum is 4" inside diameter. Shrimp pots must not exceed 10 ft. in perimeter, maximum height 18".

### ADDITIONAL RULES FOR HOOD CANAL (Marine Area 12)

**SHRIMP POT:** Pots must be constructed of mesh material, except for the entrance tunnels, and must allow a 7/8" square peg to pass through each mesh without changing the shape of the mesh opening (no liners allowed). See diagram.

Tunnels must enter from the sides of the pot, and may be made of any size mesh material. The sum of the maximum tunnel widths must not exceed one-half the perimeter of the bottom of the pot.

### LOST GEAR

Do not attempt to salvage lost shellfish gear from Hood Canal without first obtaining a permit from the Department of Fish and Wildlife Enforcement Program. Call (360) 902-2936.

**2003/2004 SPORTFISHING PAMPHLET SURVEY**

Over the past year Washington Department of Fish and Wildlife, Fish Program has been reviewing and discussing options to enhance your fishing experience and improve the sportfishing pamphlet. Our goal is to present the information in the sportfishing pamphlet in a consistent manner that is easy to understand. Minor changes have been made to this edition to create consistency and make the pamphlet easier to interpret and use by the resource enthusiast. This is only the first step in the pamphlet improvement process that we are undertaking. We are asking for your assistance in helping us with the rest of this process by participating in our Sportfishing Pamphlet Survey.

Please review the four freshwater special rules layout options below and let us know which one you like best by marking the check box and returning it to the address shown above. Please feel free to submit additional layout comments or changes to the choices below with this survey.

**Option A**

Use the current format as shown in this publication.

WATER	SPECIES	SEASON	ADDITIONAL RULES
ABERNATHY CREEK (Cowlitz Co.) from mouth (Hwy. 4 Bridge) to Abernathy Falls	CLOSED WATERS - from posted markers 500' below salmon hatchery upstream to Abernathy Falls.		
	TROUT	June 1-Aug. 31	Min. size 14". Daily limit 2. CLOSED to fishing for STEELHEAD. Release wild CUTTHROAT.
	Other Game Fish	June 1-Aug. 31	Statewide min. size/daily limit.
	TROUT	Nov. 1-Mar. 15	Min. size 14". Daily limit 2. Release wild CUTTHROAT.
	Other Game Fish	Nov. 1-Mar. 15	Statewide min. size/daily limit.

**Option B**

The option below shows the same information as mentioned above, however it is presented in a text format. This option contains the freshwater rule exceptions, and some of the statewide freshwater rules. You are still required to determine which statewide freshwater rules are not mentioned and use those along with the statewide freshwater rules. (See sample layout below.)

**ABERNATHY CREEK (Cowlitz Co.) from mouth (Hwy. 4 Bridge) to Abernathy Falls.**

CLOSED WATERS – from posted markers 500' below salmon hatchery upstream to Abernathy Falls.

**TROUT** – Open June 1 – Aug. 31, minimum size 14", daily limit 2. Release wild CUTTHROAT. CLOSED to fishing for STEELHEAD.

**OTHER GAME FISH** – Open June 1 – Aug. 31, statewide minimum size and daily limit.

**TROUT** – Open Nov. 1 - Mar. 15, minimum size 14", daily limit 2. Release wild CUTTHROAT.

**OTHER GAME FISH** – Open Nov. 1 – Mar. 15, statewide minimum size and daily limit.

**Option C**

This option lists **only the exceptions to the statewide freshwater rules**. You still use the statewide freshwater rules and the statewide freshwater species rules, however you do **not** have to determine which rules are duplicated because **only** the exceptions are listed in this layout option. These freshwater rule exceptions override the statewide freshwater rules, and the remaining statewide freshwater rules apply. (See sample layout below.)

**WESTSIDE RIVERS SPECIAL RULES**

WATER	SPECIES	EXCEPTIONS TO STATEWIDE RULES
